

Voting Restoration & Democracy Act of 2018

Talking Points and Instructions for Collecting Petition Signatures

TALKING POINTS

Engaging People:

- “Excuse me, would you sign this petition to support voting rights for all?”
- “Would you sign this petition to remove unjust voting restrictions on incarcerated people?”
- “Would you sign this petition to end harsh voter disenfranchisement and support democracy?”

VRDA Facts:

- This initiative would remove voting restrictions for people in state prison and on parole in California, affecting about 162,000 people.
- If passed, California would join states like Maine and Vermont that never remove a person’s voting rights because they go to prison.

Helpful Facts/Statistics:

- Access to voting is linked to lower recidivism, meaning ending voting restrictions can improve public safety.
- The U.S. is one of the only developed countries to remove voting rights when a person is incarcerated, and Human Rights Watch has said we have some of the “harshest felony disenfranchisement laws in the world”. Countries such as France, the Netherlands, Canada, and Japan never remove a person’s ability to participate in their democracy because of a conviction.
- People in county jail and on probation already have had their voting restrictions eliminated, this initiative expands that to all currently and formerly incarcerated people in CA.
